Clinicians Honor Roll

In the Fall of 2009, the San Francisco Hep B Free Campaign will begin publication of the Hep B Free [Clinicians Honor Roll](#) to promote the growing number of doctor's offices that are testing patients and working to prevent liver cancer and Hepatitis B disease. According to Mitch Katz, MD, Executive Director of the SF Department of Public Health, "We want to highlight those who are already actively working to prevent hepatitis B in San Francisco; and to inspire other physicians to do the same."

* Are you currently listed in the SF Hep B Free [Clinicians Honor Roll](#)?

Yes, I am already listed.

No, I am not yet listed but will complete the [Honor Roll Pledge Form](#) and submit it soon.

No, I am not listed and don't wish to be at this time.
